

**PETERMAN**  
- LUMBER INC. -

## AMERICAN LAMINATES

Our cabinetmakers preferred panel! Woodgrain patterns that mimic real wood species in a classic smooth texture. American laminates AMPINE NAF AMLAM M2 is stamped on every panel and is an industrial grade core that was developed specifically for machining. If you have not tried it you will immediately recognize the difference in how smooth it cuts. No added formaldehyde (NAF) is standard in every panel, not an extra charge or specification you need to ask for.

## DURAMAR

Duramar has carefully curated on trend colors and exotic looks to offer the most natural range of timber hues and striking colors available in a classic smooth finish. Stay ahead of kitchen trends by mix & matching solids with woodgrains to achieve a fresh look.
