Snap to Assemble LEG LEVELERS

Why do you spend so much time with what is underneath your boxes? Check out this slick little PVC kit that makes leveling your cabinets fast and efficient, and use that extra money in your budget to add some details that your customer will notice.

PVC TOEKICK

- Lightweight PVC design
- Kick Clip slides into groove
- Gasket flap to keep out moisture and dirt
- Comes in 9ft lengths

PVC LEG LEVELERS

- Dowel post and screw in options
- Socket lip shifts weight to vertical panels, avoiding warping or blowouts in base cabinets
- Lightweight & durable PVC
- Warp resistant
- Quick & easy way to level boxes
- Negative & positive adjustability
- Easily Integrated with PVC toekicks
- 3 heights available: 4", 4.75", 5.875"
- 1.25" Total Range of Adjustability
 - 1" Factory Setting
 - Bonus 0.25 adjustability past stopper point

FLEX CORNER

Flexible corner to hit any angle.

90 DEGREE CORNER

Fits any outside 90 degree corner.

CONNECTOR

PVC Toekicks are 9ft long but not all kitchens are. These come in handy when working with long stretches and nicely cover seams.

Gola Extrusions

Our Gola System takes the stress out of European *handle free* cabinetry trends. This channel based system from Salt Intl. gives you an easy to install, efficient solution to contemporary design that is an option your customers will like to look at as much as use. Ask your Sales Rep for more information on system accessories such as end caps and corners, or our LED lighted options.

**** System accessories and LED options available.**

GOLA L-CHANNEL

This L shaped extrusion gives both a decorative floating countertop and also eliminates the need to use knob or pull hardware on the doors. Giving you a streamlined and modern look.

FINISHES

GOLA C-CHANNEL

This C shaped channel can toollessly attach to cabinets with the support clip and exposes the decorative metal extrusion to eliminate the need to use knob or pull hardware on the doors.

GOLA UPPER CHANNEL

This T shaped profile elegantly lifts your door away from the cabinet box to create a contemporary Hardware-free look that is perfect for uplift or bifold upper cabinets. This profile is as functional as it is easy to install.
