

Medical Reimbursement Letter

The “Health Care Reform Medical Loss Ratio” is a new policy that was added to the ACA. Essentially, the ACA limits the total revenue that insurance carriers can collect to 15%. If they collect any amount over that limit, they must return it to the policyholders.

Some of you may have already received a letter regarding this. PLI will be notified next week if any of our plans were eligible for this rebate. Should we receive one, it will be distributed to the eligible employees through Paychex.
